Délicate prestance

Forte et légère à la fois, Alba porte le luminaire avec élégance. Ses formes rondes et souples rappellent la douceur de l'aube alors que les reliefs soulignent sa présence rassurante. Elle participe à la création d'ensembles modernes : en version simple ou double feux, du haut du mât, mural ou contre poteau, la console Alba surplombe le lieu à éclairer avec classe et sérénité.

Delicate presence

Strong and light at the same time, Alba carries the lighting fixture with elegance. Its round and flexible forms remind the dawn's sweetness, while the reliefs emphasize its reassuring presence. It participates in the creation of modern sets: single or double lights, top or lateral mounted, against a wall or a pole, the Alba bracket overlooks the place to illuminate with class and serenity.
