HORDONIA

HORDONIA 2 FEUX / 2 LIGHTS

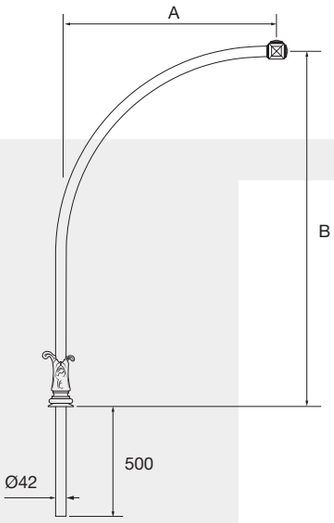

LE DÉTAIL QUI CHANGE TOUT

Fabriquée en tube acier galvanisé et protégée par une peinture polyester, Hordonia sublime son design par un motif en fonderie d'aluminium. Simple mais ouvragé, son profil original marque subtilement le décor qui l'accueille. Existe en version sur mât, en applique contre poteau ou murale, pour luminaires suspendus uniquement (raccord 3/4" GAZ femelle).

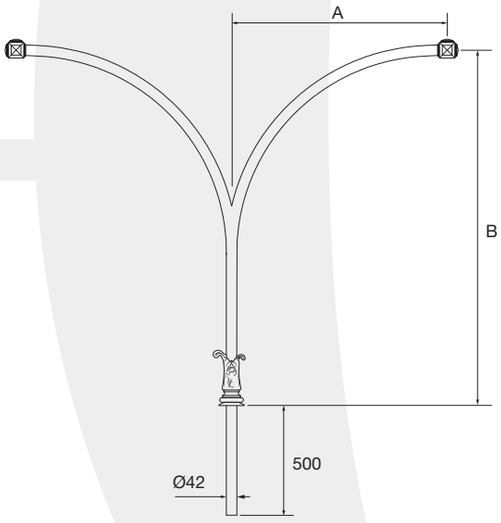

THE DETAIL THAT CHANGES EVERYTHING

Comprised of a galvanised steel tube and protected by polyester paint, Hordonia's design is enhanced by a pattern in cast aluminium. Simple but carefully crafted, its original profile makes a subtle difference to the setting in which it stands. Available in a post-top version, set against a mast or wall-mounted, solely for suspended luminaires (3/4" BSPT female coupling).
